

Superstition Ain't the Way

Post by "Eikadistes" of May 9, 2026 at 8:38 PM

[Quote from Titus](#)

the political topics you are talking about seem to be of semantic value and interest for a "Western only" and especially US-American audience

Not even climate change and vaccine distribution?

"...irrevocable changes to the Earth's biosphere will lead to the displacement of 2 billion human beings and cause the deaths of hundreds of millions more..."

I feel like that one, in particular, is uniquely global.
