Hi [Keith](#) Happy to have you. That was also the main reason i joined as well. We also have a few youtube videos as well. If you're getting into digging deeper may i recommend Torquatus speech as a seminal work on ethics.

Thankfully you have Emily A. Austin's books, the best in my view, Norm DeWitt's Epicurus and his philosophy has a open access PDF on Google by Agathon library i think, easy to find just by googling.

Happy to have you hear and check around.
