

## PD 25 meaning? by Woolf (2004)

Post by "Cassius" of May 11, 2026 at 11:36 AM

[Quote from wbernys](#)

because we can't experience the height of pleasure while in pain, and oftentimes pain doesn't allow pleasure as the two are opposites, so I don't mind commentators emphasizing that with caveats.

And yet on the last day of his life Epicurus considered himself happy / and/or considered it to be among his happiest days despite his excruciating pain.

How would you reconcile that with what you just wrote as quoted there?
