

Updated FAQ Entry: Why Should I Care About Epicurean Physics When So Much Science Has Changed In The Last 2000 Years?

Post by “Peter Konstans” of June 16, 2026 at 7:37 AM

Reductionism is true for the simple reason that we know of nothing that can't be reduced to atoms. Literally everything is made of bosons and fermions. I personally favor the reductionist version of Epicureanism. So called emergent phenomena aren't real but that doesn't mean or imply that reality is an illusion in some sort of way.
