

Living The Hobo Life?

Post by "Cassius" of January 8, 2018 at 11:25 PM

I think the latter part of the section on Nature is just the writer's political preferences, yet he makes no references to the large number of PD's on "justice." And so he reaches the conclusion "In combination, these four large changes in nature make modern Epicureanism miserable and nearly impossible." which I suggest is hogwash.
