

Philebus - Plato's Arguments Against Pleasure and Epicurean Responses

Post by "Cassius" of October 2, 2019 at 4:37 AM

Excellent! Too late at night for me to absorb at the moment but I will read! This is probably a situation calling for a "collapsible" outline hierarchical format with headings and subheadings at increasing levels of detail the further out it is opened. Otherwise we deal with the "wall of text" problem you mentioned earlier.

The Jowett intro is helpful but it ends up being a wall of text too.
