

Technology Question - How Best To Create "Video" With Speech Matched To Scrolling Text

Post by "Cassius" of October 11, 2019 at 7:44 PM

OK i am learning that left-moving the text left takes lots more processing power, so this is just a clip. I will keep working on the full version but this shows what can be done. The audio could as easily be a live voice as it is Ivona.

Later tonight I need to run a system upgrade but we should not be offline for long. Thanks Kyle!!
