

The (belated) Decline of Christianity in the United States

Post by “Joshua” of October 19, 2019 at 9:32 PM

Thanks, Cassius.

There was a bill put forward in 2017 in the legislature of my home state of Iowa to put Intelligent Design into the science curriculum. This bill was put forward in the State Capitol building in Des Moines, 35 miles south of Iowa State University where the first computer was invented in 1937.

The bill died mercifully in committee.
