“Common Objections to Epicureanism – with Responses.” This list is based on a lecture given by a philosophy professor who analyzed and criticized Epicurus from the point of view of Aristotelian philosophy. It includes some of the most powerful objections to Epicurus that have been repeated for thousands of years, and it is important to have a ready reference for them. A summary of the list is here: <https://www.facebook.com/groups/gardeno...64692006953188/>
