

Intelligent Life on Earth Before Humans?

Post by “Elayne” of October 23, 2019 at 8:37 AM

Of course, they haven't found the evidence yet... but it's a pretty compelling theory that is worth investigating! The aha moment of thinking "hey, maybe this previous climate oddity had a technological reason"-- I love those epiphanies, even if they turn out not to lead anywhere, because every so often it leads to new discoveries!
