

Poll: Marriage / Children Status?

???!!! Oh, my...could he have changed his mind at some point or did I get someone else's advice mixed up with his?!

Children are NOT simple!

I want to marry, but still wonder if I'd be lucky enough to have a simple happy marriage...I am convinced most people do NOT.

Thanks for sharing this.

Part of my own criticism of Epicurus was that it is part of human nature to have sex and/or need physical affection/touch. i felt like denial of it might not be missed by some, but might break others. This topic is plaguing me right now in my own life.
