

Welcome Obscure!

Post by “Cassius” of November 22, 2019 at 1:34 AM

Obscure: if you can, please go ahead and respond as a reply to the welcome message and I will in the meantime adjust the setting on the profile to see if I can fix that problem. That has come up before and I thought it already was fixed. Thanks!

Edit; Obscure, I have now dramatically increased the space available in the profile to the maximum. Please try again as it should work this time. Thanks!
