

Wilson (Catherine) - "How To Be An Epicurean"

Cassius, given what I've read here I'll probably just get it from the library (I've checked on that- it's available). That is a good idea often anyway, to see if you really like it enough to purchase later. I will read it at some point and comment about what she says. However, as you know far more about Epicureanism than I do any errors will be probably less obvious. We'll see.
