Quote

When the intellectual universe alters, in other words, I don't feel arrogant enough to exempt myself from self-criticism. And I am content to think that some contradictions will remain contradictory, some problems will never be resolved by the mammalian equipment of the human cerebral cortex, and some things are indefinitely unknowable. If the universe was found to be finite or infinite, either discovery would be equally stupefying and impenetrable to me. And though I have met many people much wiser and more clever than myself, I know of nobody who could be wise or intelligent enough to say differently.

-Christopher Hitchens
