

# Vaughn (Lewis) - "Living Philosophy"

**Post by "Charles" of January 12, 2020 at 12:23 PM**

A brief textbook on the history of philosophy from the pre-Socratics all the way up to the late twentieth century. There's a section on the Hellenistic Era that opens up with Epicurus, I mentioned this book to Cassius during today's (1/12/2020) Skype Call and said that I would copy it, so here it is attached below, as well as the link down below.
