

# Charles' Glossary and Translations of Obscure Epicurean Books

**Post by "Charles" of January 19, 2020 at 2:46 PM**

Lodging this in here for future use - some rare works from Guillaume Lamy, an un-apologetically Epicurean Physician who deviated from Gassendi and opted instead to turn to Lucretius, (Lamy) who would later inspire a certain Julien Offray de la Mettrie to uphold the hedonistic values of Epicurus rather than, as my academic sources say "natural sciences and simple mental pleasures through the removal of pain" (despite Mettrie being a Physician and Materialist \*of course he values natural science!\*).

The books are:

"Explication Mechanique et Physique des Fonctions de L'Ame Sensitive; ou Des Sens, Des Passions. Et du Mouvement Volontaire. Ou l'on a ajoute une Description des organes des Sens."

(will add them later)
