Hi Cassius:

I am a new member of Epicurean friends. I am also a member of Epicurus Philosophy List. Vince Cook, the moderator of EPL has stated the following:

‘Epicurus's birthday, the traditional date on the ancient Attic calendar, the tenth of Gamelion, begins at sunset [on January 26th](#) this year.’

Your calendar marks Epicurus’s Birthday Jan 23rd.

I will appreciate your comments.

Thanks
