

Daily Practices

Post by “Cassius” of March 5, 2020 at 6:42 AM

Nice keyring! Years ago I would have been all over 3d printing and have all sorts of things like that by now, but I guess I am getting old! Plus technology has leapt since I first played with 3d scanning 5÷ years ago - I am going to have to pick it up again.

As for me now I content myself with wall pictures if Epicurus and the internet graphics, but something to touch is desirable too.
