## [Quote from Nico Lab](#)

I am most definitely human. Singularity has not affected me yet.

As you can tell, I'm not a scholar of Epicurus, I originally trained and worked in Psychology, but simply wish to increase my understanding of his readings and how this can benefit my understanding and practice of herbal medicine and the concept of health and what we are 'told' it means and what it meant to Epicurus.

Many thanks, Nicola.

Welcome! With all the bots online, I'm sure [Cassius](#) was just being cautious. 😊 I'm new here myself and have found the forum welcoming, intellectually stimulating, good-humored, and fun! Rest assured, I don't believe any of us are "scholars" here [but amateurs in the literal sense](#). Epicurus himself claimed to be self-taught so we're following in his (big) footsteps. Your background and training should prove helpful and interesting.

Hope your stay here is a pleasurable one!
