

Episode Eleven - More On The Void And Its Implications

Post by “Cassius” of March 28, 2020 at 2:20 PM

After editing and then posting this, I have just listened to the final product. I think we are getting better as we go, and I have to say that other than my own ramblings, which I will exclude from praising, I think this is an excellent episode and I would recommend that if you've been considering listening to one of these, but haven't, this is an excellent one to check out. Thank you Julie and Elayne and Martin and Charles!
