

Getting Started - Initial Thoughts on 3D Printing

Post by "Joshua" of March 31, 2020 at 9:25 AM

Welcome to Eugenios!

I'm still moving and shaking here in the Florida Panhandle. I recently bought a Dremel rotary tool—I'd like to play around with lost wax carving if I get the time. I really want to cast an Epicurean ring! I also downloaded Blender the other day. I tried a bit of 3d modeling, but that's all a bit over my head. Doesn't hurt to have a "cottage hobby" in a pandemic.
