

Getting Started - Initial Thoughts on 3D Printing

Post by "Godfrey" of April 2, 2020 at 7:43 PM

This article just showed up in my feed; it's an example of creating a 3D model from photos:

<https://unframed.lacma.org/2020/04/02/anc...hree-dimensions>

The software mentioned is:

<https://www.agisoft.com/downloads/installer/>

The demo is free. The pro version is \$3,499, however there's a standard version for \$179.

I assume that the model can only be as good as the photos, so there's that....
