

Horace--Ode to Wine

Post by "Cassius" of April 9, 2020 at 4:15 PM

A thorough review of all of Horace and Virgil would no doubt produce tremendous numbers of interesting and relevant quotes. Also, I know I have learned so much from reading the full "On Ends" by Cicero that I want to try to read as many of his works as possible. I wish my college reading in classics had been much better or I had a new lifetime to devote to it. Please be sure to post whatever you find.
