

Episode Sixteen - The Atoms Are Un-Destroyable And Provide Continuity To All Nature

Post by "Cassius" of April 27, 2020 at 10:32 AM

Episode 16 of the Lucretius Today Podcast is now available. In this episode, we discuss the indestructibility of atoms and how they provide continuity to nature. In the second half of this episode, we revisit the subject of [Epicurean gods](#), and discuss how the "Organians" in the episode "Errand of Mercy" from the Star Trek original series may provide a useful analogy to thinking about the non-supernatural Epicurean "gods." As always we invite you to leave us your comments and suggestions in the thread below.
