

Michel de Montaigne on pleasure

Post by "Cassius" of April 30, 2020 at 8:14 PM

Those are very interesting quotes, Godfrey, thank you! He certainly is pretty far along the road of seeing pleasure very broadly, which I think is essential to interpreting Epicurus correctly. I just don't think he's on the right path however by trying to segment it into "lower" and "higher," and he ought to see that because he himself is talking about the consequences.
