

Wax Ring Carving—Second Attempt

Post by “Don” of June 2, 2020 at 10:22 PM

Thank you again so much for letting us in on the process! I find this fascinating. I took a jewelry making class (way back) in college, so this has been a pleasant trip down memory lane for me. I never did any casting, but other students did. I'm kicking myself for not trying it now. But living vicariously through your experience had been a pleasure!
