

Engraved / Laser-Cut Wall Artwork

Post by “Cassius” of July 6, 2020 at 9:23 AM

I have split off my posts on [Commissioning Original Epicurean Artwork](#) because I think that's actually a different subject than the laser / engraving issue.

The laser engraving / wallhanging format probably deserves its own thread. The subject of finding or creating artwork that might be used as the basis for such a project is separate, since that artwork can be used in many different formats.
