I found this footnote in a book on Google Books referring to the anonymous manuscript (Rawl. D.314) which the author said dates to around 1660: R. Barbour, "Anonymous Lucretius," [Bodleian Library Record](#) 23 (2010) 105-11; D. Butterfield has also worked to trace this manuscript and its attribution history. (Note: Link provides table of contents only for April 2010 issue.)

(Note: I tried to find the article in the databases from Kent State, but only the abstract and citation were available in MLA Bibliography).
