

EpicureaPoetica—Epicurean Themes in Poetry [Video Project]

Post by “Cassius” of July 22, 2020 at 12:40 AM

1 - Wow that cartoon software works pretty well!

2 - I use Audacity for all the editing of the Lucretius Today Podcast and it works well

3 - I know people swear by OBS Studio and have played with it but not found reason to use it - we record the podcast in Skype and I just edit that file in Audacity.

4 - The visual annotation feature looks like it is perfect for the type of video you're talking about.
