

References to Epicurus' Attitude Toward The "Place of the Sciences And Liberal Arts"

Post by "Godfrey" of July 26, 2020 at 7:35 PM

Absolutely it's not an absolute!

To further compare truth and justice as proleptesis: in order to provide further understanding of the prolepsis of justice, Epicurus provides 10 [Principal Doctrines](#). In order to provide further understanding of (the prolepsis of?) truth, he provides the Canon.

That of course doesn't mean that truth is definitely a prolepsis, but it does seem to me to be an analogous situation.
