

References to Epicurus' Attitude Toward The "Place of the Sciences And Liberal Arts"

Post by "Cassius" of July 27, 2020 at 7:10 AM

[Quote from Martin](#)

Just for clarification:

The truth about something is not a prolepsis (in most cases). During the referred to podcast discussion, my agreement with truth as prolepsis was about the meaning of the word truth, not truth about something, and I thought the other participants were referring to the meaning of the word truth, too.

Don, I wonder if you have the same concern about this as your earlier concern?
