

# **How Supporters of Epicurus Should Approach The Effect of Modern Scientific Discoveries In Their Promotion of Epicurean Philosophy**

**Post by “Philos Armonikos” of August 16, 2020 at 5:39 PM**

I haven't finished reading your comment yet, but the first thing I want to admit is that you are correct that my wording is imprecise. It is not meaningful to want to 'revise the conclusions of the [old] physics'. They are what they are.

Please allow me to restate that more precisely as: 'drop the literal acceptance as true the conclusions of the old physics', and 'seek to develop a new physics that is consistent with both our Canon, informed by the information we know now.'
