

Episode Thirty-Two: The Atoms Are Colorless, But the Implications Are Not

Post by “Cassius” of August 25, 2020 at 12:08 PM

Good link on necessary and sufficient. The words can seem obvious, but that's a good reminder that ALL of the necessary conditions must be present in order to reach the "sufficient" level. But in common discussion, even "sufficient" implies that something more is needed, so you have to be conscious of whether that is true or not and the basis on which you're making the conclusion.
