

Stoic Objections to Epicurean Doctrine on Infinity of The Universe

Post by “Don” of September 1, 2020 at 7:18 AM

Oh but I think he's saying that not only are all possible options possible, they actually exist in all possible infinite cosmos. So every explanation actually exists out in the infinite cosmos and that's why Epicurus needed infinite worlds for this to be true.

I'm not saying I agree but that's the author's thesis.
