Quote from Godfrey

6. In a sentence the author uses the phrase “concepts born of sensation” (followed by προληψεις [prolepseis] and a citation that I don’t understand) (page 58)

I had to investigate. It's appears the *Life* citations are to the verses in Diogenes Laertius, Book X, *Life (of Epicurus)*. But they don't fall exactly every time. I'm using the one posted to Perseus Digital Library. But that has to be it after checking several, so take the verse number and +/- 1 verse. Could be here using a different translation.
