

"Easter Sunday 2018" - Epicurean Philosophy Doesn't Start And End With "Pleasure"

I begin to think that at various parts of my websites I am going to replace quotes that focus narrowly on pleasure with quotes that highlight the physics / canonic basis of Epicurean philosophy, not out of concern about pleasure but so not to play into the hands of those who argue that pleasure is the only subject Epicurus addressed. And then, at the same time and in parallel, pursue how "pleasure" covers much more ground than it appears.
