JVA did you mean to post a text file? I see the contents are this:

There is no God per se.

Do not fear death.

The good is easy to obtain. Love is good.

The terrible you can endure.

Existence precedes meaning.

Happiness is found in living a prudent (constructive and positive) life.

Balance and friendships are important keys in life.

Things most of value are happiness, love, beauty, art, pleasure, information, creativity, options and

peace.
