

Lucretius Video - David Goodhew

I have not had time to watch this. The brief glimpse I took of it indicates it may be too basic for most of us here (or may not).

One thing I noticed immediately is that the lecturer has a strong British accent and the sound is not optimum, so I found him somewhat difficult to understand.

However all in all this one may be worth linking here, so if someone watches this and has a comment please let us know.
