

# Cute glass pig

Post by "Don" of September 7, 2022 at 8:13 AM

I have no reason to think this is Epicurean inspired but I thought it was cute:

[Pig Römisch Germanisches Museum Köln](#)

Visit the post for more.

[ancientglass.wordpress.com](http://ancientglass.wordpress.com)

I found it online and it appears to be in Köln originally but has been moved [according to Instagram](#):

decimusclaudius A Roman glass depiction of a pig. It was found locally and is normally on display in the Roman-Germanic Museum in Cologne, Germany although due to construction works it is currently on display with a selection of items in the Belgian House which is also in that city very rich of history.
