

# **Episodes Of Lucretius Today Available At Archive.org**

**Post by “Cassius” of September 19, 2022 at 4:12 PM**

A lot of effort from many people has gone into producing the Lucretius Today podcast over the years, and we don't want the availability of the show to be tied to one podcasting platform (currently speaker.com). For that reason we will try to keep them all available at Archive.org, where they can be listened to or downloaded, singly or as a group, at the following page:

Today we updated the Archive.org listing so that all episodes from 1 to 190 are now available there.

archive.org

It's quite large (9 GB download), but Archive.org makes it possible to download the [full set of episodes in a single zip](#) file, so feel free to download your own set for backup purposes.
