BRANDON!!!! So glad you joined.

All: Brandon and I have been BFF's for 22+ years. He's a super guy. In contrast to me, he's a science geek and will have lots to contribute on that front.

Hello, folks! I look forward to exploring this philosophy and its implications in my/our lives.

Brett! Thanks so much for pointing me here. Looks like it is going to be a good time!

Glad to have you Elbrando! If you re friends of Brett then you are certainly welcome here. There is generally lots of interest in Epicurus from people into physics who appreciate Luretius, which I know would include [Martin](#) and [Harrington Andros](#) . If there's anything we can help you find let us know.
