Related Thread (this video originally appeared in post 39 of this thread:

Thread

[Propositional Logic, Truth Tables, and Epicurus' Objection to "Dialectic"](#)

Martin has pointed out what appears to be an excellent opportunity to put together a special presentation on Epicurean views of "formal logic" and its relationship to reality. The opportunity comes from our mention [in an earlier thread](#) of the following statement by Torquatus in Cicero's On Ends:

epicureanfriends.com/wcf/attachment/2222/

Again, the thread reference was here, and below is a copy of Martin's post: [RE: Issues In The Meaning And Definition of Logic](#)
