

Updates To Side-By-Side Lucretius Page

Post by "Cassius" of October 31, 2025 at 8:06 AM

This week we have updated the Side-By-Side Lucretius, which contains the Latin along with translations by Bailey, Dunster, and Munro. The old [topical guide page](#) will remain available, but now that outline has been incorporated into the side by side version. Pick the columns you wish to see using the "hamburger" menu icon at the top right. Also added is the ability to resize the columns, so now you can pick the ones you want and then resize them for best reading. Let us know in this thread if you have any issues using the page.
