

More Renovations -- Updates to "Map" View To Make Topics Easier To Find

We've updated the "Map" page with an easier-to-read version. The old maps are still there but this is definitely easier to navigate on a phone-sized screen:

We're going to improve that and make it easier to find. For the time being it is par of the "Map" box in the right sidebar if you are on a wide screen, or near the footer if you're on a phone.

The updated "Forum Navigation Map" is now added to the dropdown menu under "Forum".

We now also have an updated "Forum Shortcuts" (I'll be making a few more adjustments to that). Also found in the dropdown menu under "Forum".
