

# Free Epicurean Materials Torrent Content Suggestions

**Post by “godek” of December 12, 2018 at 7:05 PM**

This is suggestions for version 2.  
The old version 1 is [here](#).

Please state what I should keep add or remove. I've listed the folder Epicureanism contents below. I thought it would be useful to have an archive of our legally sharable materials in our circle of Epicurean friends on the web that have been shared over the years. I've tried to make sure that all the content is legally sharable. Please do not make suggestions for adding content that is not legal to share thank you! Also please seed and share torrent one. If you don't know how to use Bittorrent file sharing [click here](#). I recommend the Bittorrent client [qBittorrent](#). I am not finished adding the audiobooks that Cassius Amicus has added on newepicurean website. I may remove the male voice I just thought it would be useful to have both so as if one had a preference for the other.

Thank you for all this work Tyler. I'll take a look and see if I have any suggestions as soon as I can.

I may be overlooking it but have you downloaded and included Epicurus.net and Epicurism.info? Both of those have lots of good materials.

I have downloaded epicurus.net and works flawlessly with all the links I tried, however, with epicurism.info I have had trouble with the links when I navigate them from the downloaded version. I downloaded them using htrack website fetching archiving software.

Yes I have used HTTrack too and it works well. Possibly the epicurism.info doesn't work because of a problem they introduced when they migrated it from epicurus.info. Maybe the archive.org version of epicurus.info would work better.

What about adding material that mentions Epicurus? A book I am almost finished with that I had a therapy class in mentions Epicurus it is called "The Gratitude Dairies". Well, since it isn't legal to share it we could if relevant add it to a document list of recommended pay for items.

Tyler I would start a classification system that rigidly separates:

- (1) Books by declared Epicureans devoted to promoting Epicurean ideas, and
- (2) Books by non-Epicureans which contain passing references to Epicurus.

And I would advise you, and think you will make the most productive use of your time, to stick with things that are in category one. And it sounds like the therapy book (and there are going to be a LOT of those) would be in group two. Which is not to say it isn't good to keep a list of them, but the ones to focus on are in group one.
